Open to Relocate: Yes | **Lives in:** Avellino, Italy | **Nationality:** Italian
Languages: Italian (Native), English (C1, Fluent)

SUMMARY

Software Engineer with **2 years** of industry experience in a startup. Contributed to end-to-end releases across **7 projects** covering **~60% of annual revenue**, mainly using **.NET, React, and Azure**.

SKILLS

Languages: C#, Python, JavaScript, TypeScript | **Frameworks:** .NET, FastAPI, React, Vue, Node, gRPC | **CI/CD:** Jenkins, OpenShift, SonarQube, Docker, Kubernetes, Git | **Test:** xUnit, pytest | **Cloud:** Azure | **DB:** MySQL, PostgreSQL | **Tools:** Claude Code, Codex

EXPERIENCE

Software Engineer	04/24 – Present
WM Rome, startup venture within Reply (Ticker: REY)	Remote
• Impact: Contributed to end-to-end v1/v2+ releases across 7 projects representing ~60% of annual revenue. • Optimization: Built a LP heuristic that assigns 200K clients to 150 portfolios under allocation constraints in 3s. • Performance: Optimized high-traffic endpoints, improving p95-99 latency and service stability during peak load. • Testing: Implemented features using TDD and maintained 80% test coverage across all core backend services. • CI/CD: Built CI/CD pipelines for 8 resources using Jenkins, OpenShift, Docker, and SonarQube. • Teamwork: Worked in Agile teams (min size: 2, max size: 7), including pair programming on critical features. • Cloud: Contributed to the setup and management of 7 Azure resource groups. • RAG: Built a system screening 3K monthly calls and cutting human review cost by 67% via LLM classification. • ETL: Developed pipelines across 5 enterprise databases (10M records). • Support: Handled real-time incidents, including weekends, to restore service and minimize user impact. • Interviews: Conducted technical evaluations for 2 senior candidates during hiring processes.	
Freelancer (Occasional, Weekends Only)	2024 – 2026
Self-Employed, Outlier AI	Remote
• Developed 3 simple websites (e.g., Costiera Experience). • Reviewed LLM-generated code with structured RLHF feedback to improve quality and correctness.	
Software Engineer Intern	02/19 – 05/19
University of the Bundeswehr Munich	Munich, Germany
• Built InputGraph, a Java user interface for the Grappa project, supporting parser behavior analysis in ParVis.	

PROJECTS

Find the shortest path among different Maps providers by using machine learning	2024
• Work done under the supervision of Prof. Flavio Chierichetti for my Master's thesis.	
Wrote technical blog posts on my website	2025
• LoRaWAN vs NB-IoT, Voice in Modern Networks & AI, Positioning in Modern Networks.	

EDUCATION

Sapienza University of Rome	2020 – 2023
Master of Science in Computer Science (English), <i>Grade:</i> 107/110	Rome, Italy
University of Salerno	2016 – 2020
Bachelor of Science in Computer Science (Italian), <i>Grade:</i> 94/110	Salerno, Italy
